SUMMARY REPORT  
FT 950-1

May 1966

FOR RELEASE  
July 7, 1966

### IMPORT TRADE BY COUNTRY

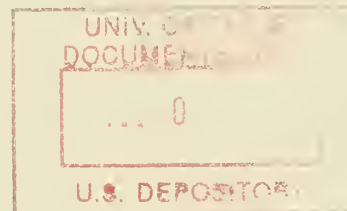

The Bureau of the Census, Department of Commerce, announced today that the slight increase in U.S. general imports unadjusted for seasonal change, from \$2,071.2 million in April to \$2,092.5 million in May resulted principally from more sizable increases in imports from Canada, and E.E.C. (European Economic Community) countries partially offset by declines in imports from other O.E.C.D. (Organization for Economic Cooperation and Development) countries (except United Kingdom) and some other areas.<sup>1 2</sup>

<sup>1</sup>On a seasonally adjusted basis, total general imports were valued at \$2,070.2 million in May as compared to \$2,138.2 million in April. (See the May 1966 issue of Report FT 900-I). Seasonally adjusted data are not available by country of origin.

<sup>2</sup>Month-to-month changes in imports and similar series often reflect primarily irregular movements. Cumulations of data over 3 or 4 month periods are usually desirable to identify underlying trends.

From April to May, increases in general imports were reported from the continents of North America, Africa, Europe, and South America, while decreases were reported in imports from Asia and Australia and Oceania. Some of the individual countries contributing to the over-all increase in general imports were Canada, Republic of South Africa, United Kingdom, Belgium and Luxembourg, West Germany, France, and Colombia.

Countries registering notable decreases were Turkey, Venezuela, the Philippines, Japan, Greece, and New Zealand.

#### EXPLANATION OF STATISTICS

**COVERAGE:** Import statistics include merchandise imported by government agencies as well as by private importers, but exclude American goods returned by the U.S. armed forces for their own use. U.S. trade with Puerto Rico and U.S. possessions is not included in this report but the import trade of Puerto Rico with foreign countries is included as a part of the U.S. import trade. Merchandise shipped in transit through the United States between foreign countries is not included in import statistics. However, the statistics may include some merchandise (principally duty free) which is entered through U.S. Customs and subsequently exported in the same condition in which imported. In many cases, such merchandise differs from in transit merchandise only in the manner in which it is documented.

**COUNTRY OF ORIGIN:** The country reported in the statistics as the country of origin is defined as the country where the merchandise was grown, mined, or manufactured. In instances where it is known that the country of origin cannot be determined, the transactions are credited to the country of shipment.

**VALUATION:** The dollar value shown in the import statistics is defined generally

as the market value in the foreign country, excluding the U.S. import duties, ocean freight and marine insurance.

**RELIABILITY:** The statistics presented in this report are based partly on sample data. For the period January 1964-June 1965, formal entries valued under \$100 and all informal entries valued \$250 and under were sampled. Effective with the statistics for July 1965, all formal and informal entries valued \$250 and under are being sampled. As before, therefore, the statistics in this report are subject to sampling variation that may cause them to differ somewhat from the results which would have been obtained from processing all import entries. The probable variability due to sampling is either less than \$50,000 (the largest variation from rounding of figures) or, effective July 1965, generally less than 2-percent (less than 1-percent prior to July 1965) of the individual totals shown.

Further information regarding coverage, valuation, compilation procedures and precision of import data is contained in the foreword of Report FT 125. For complete statement, see foreword in Foreign Commerce and Navigation of the United States.

# **U.S. GENERAL IMPORTS, BY AREA AND COUNTRY OF ORIGIN: MAY 1966 AND SELECTED PERIODS**

(In millions of dollars. N.e.c. indicates not elsewhere classified. General imports are a total of imports for immediate consumption plus entries into bonded warehouses. Figures for 1966 are as originally issued. Figures for 1965 include revisions published with the December 1965 reports, or earlier, but do not include revisions published during 1966. Consult EXPLANATION OF STATISTICS on front page of this report for information on valuation, coverage, other definitions, the handling of low-value shipments and sampling variability. Totals represent sum of unrounded figures, hence may vary slightly from sum of rounded amounts)

<sup>a-1</sup>Countries included in each area are identified with the same literal footnote as the area.

<sup>1</sup>For definitions of areas and countries as used in this report, see the notice in the "Special Announcements" section of the January 1966 issue of Report FT 420 which lists the major trading areas and the individual countries included in each and the current edition of Schedule C, Classification of County Designations Used in Compiling the U.S. Foreign Trade Statistics.

<sup>2</sup>Effective with the statistics for January 1966, the country designation "Free Territory of Trieste," administered jointly by Italy and Yugoslavia, became obsolete. The information shown for Italy and Yugoslavia for January 1966 and subsequent periods includes data on shipments to portions of the "Territory" administered by each.

<sup>3</sup>Country designation "Gaza Strip" established May 1965. Formerly included under the designation "Palestine" which became obsolete May 1965.

<sup>4</sup>Country designations "North Viet-Nam" and "South Viet-Nam" established January 1966. These areas were formerly included under the designation "Viet-Nam."

<sup>5</sup>Country designation "Singapore" established January 1966. Formerly included with other countries under "Malaysia."

<sup>6</sup>Country designation "Gambia" established January 1966. Formerly included with other countries under "British West Africa."

<sup>7</sup>"Zambia," "Rhodesia (Southern Rhodesia)," and "Malawi" shown separately beginning with the statistics for January 1966. Formerly data for these countries were shown under the designation "Zambia (formerly Northern Rhodesia, Southern Rhodesia, and Malawi)."

<sup>8</sup>This is an arbitrary category established to cover data for "low-value" shipments from certain countries which could not be identified because of illegible reporting on import entries. Further information on "low-value" shipments is contained in the RELIABILITY statement on the front page of this report.
